Installation Instructions:

Step 1:

Remove new bumper from package and compare parts with the parts list above. You may also compare them to the picture in (fig 1)

Step 2:

Remove stock bumper (for easier access you may want to remove the hood)

Step 3:

Lay bumper face down on a smooth soft surface and install each end panel as shown in (fig 2). Using the 8-3/8"x 1" Hex head bolts, 8-3/8 flat washers and 8-3/8 nylon nuts.

Step 4:

Bolt upper bumper bracket to the frame at the existing stock location reusing the 2 existing stock bolts As shown in (fig 3) in addition to the stock bolts you may use the 2 self tapping screws as an added option.

Step 5:

Mount front bumper by reinstalling the 2 bottom bumper bolts as shown in (fig 4). Do not tighten all the way at this time.

Step 6:

Use the 4--3/8 x 1" carriage bolts, 4- 3/8" flat washers and 4-3/8" nylon nuts and install through the front bumper and into the upper bumper bracket as shown in (fig 5)

Step 7:

Tighten all mount bolts at this time.

If you purchased the optional light kit you are now ready for installation of the kit.
